

Editors' Update

QUIC Interim, Kista, June 2018

Martin Thomson

Wot Changd

Not a lot

Expect bigger changes soon

Parked and v2 issues

parked = not just now, we will confirm each before we ship

quicv2 = saved for later, with no plan to check again

Some of these are waiting on more information

Some were just being neglected

We might not fix these issues

21 parked issues

10 quicv2 issues

some others have been closed

The editors are making a judgment call here

we could be wrong, so check these issues

raise issues that are incorrectly marked on the list
